

Job Description: Senior SAP PPVC Consultant

Position: Senior SAP PPVC Consultant

Experience Required: 3 to 5 years

Salary Range: ₹8,00,000 to ₹10,00,000 per annum

Work Mode: Work from Office

Location: Work From Office (Pune)

Key Responsibilities:

- PP-VC Model Development: Design, configure, and maintain SAP PP-VC models tailored to business requirements.
- Product Configuration: Translate complex product requirements into configuration models using characteristics, classes, and dependencies.
- Integration: Ensure seamless data flow across SAP SD, MM, and PP modules to meet organizational goals.
- Change Management: Manage and document product changes, versioning, and variant-specific requirements.
- Testing & Validation: Perform unit testing, integration testing, and troubleshoot defects.
- User Support & Training: Provide end-user support and conduct training sessions.
- Collaboration: Work with business stakeholders, technical teams, and third-party vendors for successful project delivery.
- Documentation: Prepare configuration documents, process flows, and technical specifications.

Required Skills & Qualifications:

- 3-4 years of experience in SAP PP-VC (Variant Configuration).
- Strong understanding of characteristics, dependencies, super BOMs, and super routing in SAP PP-VC.
- Hands-on experience with pricing procedures, variant pricing, and constraints in SAP.
- Experience integrating SAP VC with SD (Sales & Distribution), MM (Material Management), and PP (Production Planning) modules.
- Expertise in troubleshooting and debugging SAP configuration issues.
- Deep knowledge of business processes in manufacturing and engineering domains.
- Experience working in ECC and/or S/4HANA environments.
- Strong communication skills and the ability to collaborate with various stakeholders.

Preferred Qualifications:

- Experience with migration projects (ECC to S/4HANA).
- SAP PP-VC certifications will be an advantage.
- Exposure to CPQ (Configure, Price, Quote) tools is a plus.

 Immediate Joiners Preferred.
